

Serix Lite – Blue Nitrile Powder-Free Examination Gloves

Product Specs

SERIXLITE^{3.0}
Blue Nitrile Examination Gloves

Description

- Serix Lite disposable 100% nitrile examination gloves are manufactured at the highest quality standards & offer increased protection and excellent chemical resistance
- Stronger against punctures and tears than latex gloves
- Easy to put on and take off thanks to their coefficient of friction
- Due to their close-fitting design and finger textured, they can be used with high dexterity, including wet environments
- Serix Lite Nitrile Gloves are intended to be worn on the hands of healthcare personnel during medical examination procedure to protect cross contamination between healthcare personnel and patient.
- Tested and certified as a medical device according to EN 455

Areas of use

- Hospitals, Laboratories, Clinics
- Health Care
- Dentistry and veterinary applications
- Food production and processing
- Cosmetics Industry

Advantages

- Ambidextrous and feature a tight-fitting design and textured fingers that provides better movement and handling
- Suitable for individuals with latex sensitivity/allergies
- Ideal for use in food processing and food service
- Super soft and comfortable.
- Multilanguage text on box (RO, DE, IT, ES)
